Naples, June 28.

THE exceſſive Heat of the Seaſon has obliged the Imperial Troops to leave the Camp they had formed between Capua and Averſa; and part of them are quartered in this City, and the reſt cantoned in the neighbouring Towns and Villages, but they are always kept in Readineſs to draw out upon the firſt Notice of the Appearance of the Spaniſh Fleet, and ſeveral light Frigates keep conſtantly cruizing off our Coaſt for Intelligence. The new Fortifications at Capua are carrying on with all poſſible Expedition; as are alſo thoſe at Gaeta, and ſome new Works that are erecting along the Sea Shore, for the better preventing the Spaniards from making a Deſcent in theſe Parts.

Vienna, July 9. We are in daily Expectation of a Courier from Paſſarowitz with the Treaty of Peace ſigned in Form between the Emperour and the Republick of Venice, and the Ottoman Porte. The Limits of his Imperial Majeſty's Dominions towards Croatia, Boſnia and Servia, as ſettled by this Treaty, are ſaid to extend from the River Una along the Save to the Drine, thence by Mount Hemos and the Timoch to the Danube, ſo along that River to the Alautha, which is to be the Boundary on that Side, to the Borders of Tranſilvania. Count Schlick, Great Chancellour of Bohemia, is ſaid to be deſigned to go in the Quality of his Imperial Majeſty's Ambaſſadour to the Grand Seignior upon the Concluſion of the Peace. General Wachtendonk, who is now in Hungary, being appointed Governour of the Town and Citadel of Milan, Directions are ſent him to repair thither forthwith. Orders are likewiſe diſpatched to Hungary to haſten the March of the Detachment ſent from thence to reinforce the Imperial Troops in Italy.

Madrid, July 11. The King of Spain has had no Return of his Ague for ſeveral Days, and is ſo well recovered that he goes frequently abroad to take the Air, and it is ſaid the Court will ſhortly remove from the Eſcurial to the Pardo. The 5th Inſtant an Expreſs came from the Spaniſh Ambaſſadour at the Court of Portugal, with Advice that the Britiſh Fleet under the Command of Sir George Bing, was ſeen the 30th paſt off of the Coaſts of that Kingdom; the 8th a Courier came from the Governour of Cadiz with the News of its being come into that Bay; and Yeſterday an Officer ſent by the Britiſh Admiral with Diſpatches for Collonel Stanhope, His Majeſty of Great Britain's Envoy at this Court, arrived here from on Board the ſaid Fleet, and went forward to the Eſcurial, whither the Envoy was gone that Morning. Letters from Barcelona of the 2d Inſtant ſay, that the Spaniſh Convoy which ſailed from Cadiz the 17th paſt, had called in there for Orders, and immediately purſued its Courſe to the Eaſtward, leaving only a Man of War behind to bring up ſome Tranſports that had been ſeparated from the reſt by bad Weather, and were expected at Barcelona, being the Port appointed for their general Rendezvous, in caſe of any ſuch Accident. The 8th Inſtant the Preſident of the Council of Caſtille ſent an Officer of the Palace to the Nuncio, to ſignify to him that he ſhould leave this City in 24 Hours, and the Kingdom in 20 Days, who ſeemed ſurprized at this ſecond Meſſage, which is more peremptory than the former, and deſired leave to ſtay to ſettle his private Affairs, which he obtained, and is ſtill here preparing to depart ſuddenly. The Preſident of the Council of the Cruzada had a Conſultation this Week with ſome Doctors of the Civil Law, concerning a Brief the Pope has lately iſſued to put a Stop to the Subſidy he granted to the King two Years ago of a Tenth of the Revenues of the Church for five Years, towards carrying on the War againſt the Turks; and the Reſult of their Debates was that it is not in the Pope's Power to recall that Grant, though it may be in his Choice to continue it or not, as he ſhall ſee Cauſe when the Term is expired. The Council of the Hazienda or Treaſury have ſent Directions to Cadiz to ſeize for the King's Uſe the Silver brought home by the Advice Boat lately come from Vera Cruz, amounting to 500000 Pieces of Eight, the ſame being confiſcated on Pretence that it ought not to have been imported on any other Veſſel but the Galeons: Orders are alſo ſent to St. Sebaſtian for a Ship which lately arrived there from Buenos Ayres, to go and unload at Cadiz, upon a Suggeſtion that her putting into St. Sebaſtian was with an Intent to defraud the King of his Duties, as being a more convenient Port for ſuch Practices.

Paris, July 23. The Audience which the Deputies of the Parliament of this City were to have had of the King the 18th Inſtant, to make a further Repreſentation concerning the late Edict for regulating our Coin, is put off till the 26th. The Books for Subſcriptions to the Stock of the Company lately erected to carry on a Trade to the Weſt Indies, conſiſting of an Hundred Millions of Livres, were cloſed the 16th, that Sum being entirely ſubſcribed. The 18th the Farm of the Duties on Tobacco was adjudged to the higheſt Bidders, who are to give Three Millions Two Hundred and Thirty Thouſand Livres, which is above a Million of Livres more than it formerly produced. The States of Britany have conſented to pay the Subſidies demanded of them, and will ſhortly ſeparate. The Earl Stanhope ſet out from hence Yeſterday Morning for the Court of Spain. Our Letters from Italy give an Account, that the Spaniſh Fleet ſailed from
